

REJUVAPEN PROTOCOL

Q: What is the interval between each session?

A: one month.

Q: Who performs it?

A: Our aesthetician Chanel or Dr. Janjua.

Q: How do I know I need it?

A: If you have large pores, fine wrinkles, acne scars, stretch marks, loose appearing skin or hyperpigmentation then you are a candidate for this procedure.

Q: What is the cost?

A: \$300 for full face. For complete price list please read the Rejuvapen Rate Sheet or click here

http://janjuafacialsurgery.com/forms/dermasweep_rejuvapen_pricelist.pdf

Q: What is the preparation?

A: Please read the Patient Care Sheet or click here

<http://janjuafacialsurgery.com/forms/Rejuvapen-patient-instructions.pdf>

Q: Are there any dangers or side effects?

A: The inherent risk of side effects in any skin procedure includes prolonged redness, swelling, bruising or color change. For more detail please schedule an appointment with our aesthetician or physician.

Q: How much downtime?

A: Redness for about 2 hours. Later in the day just feels tight. You can go to work next day.

Q: When can I put on make up?

A: The next day.

Q: When can I exercise?

A: The next day.

Q: I am on blood thinners?

A: You have to stop the blood thinner before the procedure. Avoid Aspirin for 7 days and Motrin or related products for about 3 days.

Q: When can I do Botox and fillers?

A: Starting the next day.
